FOR SANITARY INSTALLATION PREMIUM ASSEMBLY LUBRICANT / PRESERVATIVE

Well Pro Anti-Seize/Gasket Lube is specifically formulated to aid in the assembly and preservation of pitless adapters in water well casing applications. It incorporates **USDA H-1 food grade anti-seize** technology with elastomer preservation technology.

Well Pro Anti-Seize/Gasket Lube is formulated with a unique blend of synthetics and white oil thickened with a food grade aluminum complex soap. The aluminum complex soap provides the highest level of water resistance with thermal stability. The blend of USDA H-1 fluids were carefully balanced to provide a wide range of gasket compatibility and lubricity.

The Antibacterial / Antifungal additive further extends life of the lubricant and reduces the potential for contamination.

Specifically designed to aid in the installation of pitless adapters, Well Pro Anti-Seize/Gasket Lube can be used for other gasket installation applications. It can also be used for anti-seize applications where drinking water or incidental food contact is likely.

WPAL012 - Aerosol provides handy way to apply lube in hard to reach places.

WPAL100 - Economical 1 lb. size brush top can

Anti-Seize/Gasket Lube Aerosol and Brush Top Can
